Vendor Address

Re: Request for Applications for TSE in Georgia (2009 ARRA)

Dear Vendor:

The Environmental Protection Division (EPD) is hereby making a request for applications (RFA) from all truck stop electrification (TSE) vendors interested in electrify parking in Georgia to reduce diesel emissions associate with idling of long-haul trucks. EPD was awarded \$748,000 through the 2009 American Recovery and Reinvestment Act (ARRA) to install TSE in Georgia. This funding must be used to electrify parking at three or more different truck stops in Georgia. EPD is offering TSE vendors an opportunity to compete for this funding through a subgrant process. The Department of Natural Resources (DNR) board specified the eligibility and selection criteria according to 391-3-21-.11, which has been enclosed. The required application form is on the enclosed computer disk. You will need Microsoft Excel or compatible program to complete the application. A separate application must be submitted for each truck stop location. For your convenience, an example illustrating how to complete the form has been attached as well. Only those signed applications received by EPD on or before 5:00 p.m. November 2, 2009 will be considered, which must be submitted electronically or by mail to the following:

Georgia Environmental Protection Division or e-mail: Richard.McDonald@dnr.state.ga.us

Mobile and Area Sources Program

Attn: Richard McDonald

4244 International Parkway, Suite 136

Atlanta, Georgia 30354

In addition to submitting the original signed application, please submit an electronic Microsoft Excel version of your application (via email, CD, DVD or USB Flash Drive).

If you have any questions during the RFA open period that ends November 2, 2009, please send an email to Richard.McDonald@dnr.state.ga.us. Your email and an email response will be shared with all TSE vendors during the RFA solicitation time period to assure everyone gets the same information. We look forward to receiving your applications.

Sincerely,

William Cook
